EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Joseph Price on 2/8/2010.

The application has been amended as follows:

1. (Currently Amended) A moisture absorbent material with an indicator function, characterized in that the material comprises: a resin layer containing 5 to 80% zeolite by weight; and a printed layer including a character, shape, picture or the like and disposed on at least one side of said resin layer, so that said printed layer is made to visibly appear due to said resin layer becoming transparent by moisture absorption, wherein said printed layer is so formed that patterns constituted by characters, symbols, lines or the like have a difference in the print density ~~thereof~~ relative to the resin layer to appear visible when the resin layer becomes transparent by moisture absorption.

2. The following is an examiner's statement of reasons for allowance: The examiner finds that the prior art used in the last rejection, in combination with the partial translation of Japanese Publication 2002-206046 are the closest art of record. The examiner finds that the newly amended claim 1 that specifically binds the print density

Art Unit: 2856

to the point at which the resin becomes transparent, patentably defines the claim over any reasonable combination of prior arts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
